## RITNER'S PROSPECTS BRIGHT

Nothing in politics can be more certain than that Roy W. Ritner will receive a larger vote than any other candidate for representative. Either Hodgen or Reeves may beat Dr. Best, but neither can touch Ritner. He served ably and actively in the legislature of the last session, and is entitled to re-election on his irreproachable record in private and public life. Weston will give him a big vote, as he has always been friendly toward the Weston Normal and supported it in his speeches during the last campaign. What is more to the purpose, he has taken no part in the present effort to secure the school for Pendleton, presumably for the reason that he regards himself as representative of the entire county, to whom Pendleton's interests and Weston's interests are on an equal footing.

Strictly speaking, Ritner is not a Pendleton man. His legal residence is ten miles east of Pendleton on the reservation, where he gets his mail and has voted for the past eight years. His property interests are nearly all in the same neighborhood. He is in a position to be and is an independent man, free to pursue any course that appeals to his sense of justice and wisdom.

## GEO. BISHOP--GOOD TIMBER

of residence in this county Mr. Bishop has attained to enviable standing, both as a citizen and as a practitioner. He is a hard-working and successful lawyer, which is the kind of a lawyer Umatilla county needs in the important office to which he aspires.

Mr. Bishop was born at Fallbranch, Tennessee, March 2d, 1886, and was reared on a farm. After his graduation from high school he entered the University of Tennessee and finished his literary training in 1908. He was graduated in law from the University of Tennessee in 1911. He came to Oregon and entered active practice the same year as junior member of the firm of Peterson & Bishop.

Mr. Bishop has since built up an excellent practice and married a Umatilla county girl, being especially to be commended for the latter achievement. He is now a substantial taxpayer, and is vitally and wholeheartedly interested in the county's welfare and development. In his own community he has always been an active worker for the public good and has identified himself with its civic, social and fraternal life.

Having earned his own way through college--no one contributed a penny toward his law education--Mr. Bishop knows well the value of a dollar and will be disposed to guard the financial interests of the taxpayers should they entrust him with the duties of a prosecutor. He is no fledgling who seeks to complete his education in public office.

## A RACE FOR THE DOCTOR

Quite an interesting race for representative is likely to develop in Umatilla county before the polls close November 7. The ambition of Dr. J. A. Best for legislative honors is disputed by W. T. Reeves of Stanfield and Louis Hodgen of Umapine, each of whom is highly regarded in his home community and has also considerable following in other localities. Mr. Hodgen is especially strong throughout the East End, where he is known as a substantial and level-headed farmer. He has friends also in Pendleton, where he was formerly the farming partner of Jim Maloney.

Beyond question Roy W. Ritner will be returned to a seat in the legislature, but the prospects of Dr. Best are considered open to dispute. For one reason or another he seems to have lost strength in Pendleton since his election to the mayoralty.

Pendleton boasts of receiving an endorsement of its normal school bill from the Oregon Federation of Women's Clubs, but discreetly neglects to mention that the vote of the Month delegates is all that saved the resolution from defeat after a hot fight.

W. T. Reeves of Stanfield, democratic nominee for representative, is a native son of Oregon and a progressive citizen. He owns one of the best improved places in the county.

If efficiency, integrity and industry count for anything, C. P. Strain will be re-elected county assessor.

Salem, Oct. 9--The Southern Pacific Co., in a statement on car shortage, says it is due to small demurrage charges collected in the state. It says: "Car efficiency can be obtained only by fixing the demurrage rate at a figure that will make it incentive and a benefit to the general shipping public to release cars with the greatest possible dispatch, and as the 53 rate obtained in California has brought this about to an extent not equalled in Oregon, here because of the low rates and the average agreement, five times as many cars are held in excess of the free times as in California."
